DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection. This office action has been sent because of the 35 USC 112 rejection and because there are many words that have letters that are not readable due to bad quality of the fax.

Claim Rejections - 35 USC § 112

2. Claims 2-5, 7, 9-14, 16-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 17 is rejected because it is unclear what is meant by "Li dissolved in a" and "a marrix polymer".

Claim 18 is rejected because a gel electrolyte would not comprise an anode and a cathode. This makes the claim vague and indefinite. The gel electrolyte would comprise a nonaqueous electrolyte solution. Also it is unclear what is meant by "a marrix polymer".
